

23/03/2018

Note Taker: Anthony

All were present

Topics Discussed

The team took this meeting to:

1. Create the burndown charts for each individual sprint, and the project as a whole
2. Keep working on database integration with Travis CI
3. Complete refactoring
4. Plan for final document submission. Below if the section and member(s) who should complete it
 - a. Team Members – Jason
 - b. Project Summary – Abishand
 - c. Velocity + User Stories – Jason
 - d. Architecture and Design – Saleh & Anthony
 - e. Infrastructure – Whole team
 - f. Name Conventions – Abishand
 - g. Code (5 files) – Alexander
 - h. Testing and CI – Ruochen & Tom & Nizar
5. Plan for work outside of print (See EXTRA SPRINT milestone on git)
