

Feb. 16, 2018

TA Meeting Notes:

All present except Anthony Andreoli (sick)

- Add RISK and PRIORITY correctly to User Stories
 - Risk = The cost of a certain feature not working
 - Ex) Server creation is Risk 5 because nothing works without it
 - Priority = What tasks must be completed before others can
 - Ex) Priority 1 = Initialize NodeJS
 - Ex) Priority 5 = About Us Page
- Voting MUST be included
 - Must store votes on questions and answers
 - Must be able to accept or reject an answer
 - How is up to us
 - Supposed to be done for Sprint 2
- Ensure that every commit has a detailed description
 - Can be in title or in comments
- More visible discussion on GitHub
 - Comment on issues
 - Add a brief text when an issue is closed or updated
 - Request reviews

General Comments:

- Awarded 4.1/5 for Sprint 2
 - Points deducted for missing vote feature and lack of commit comments
- A lot of progress was made
- Frequent meetings were good
